

NEW SECTION IN SUMMER I 2024

INTRODUCTION TO BEEKEEPING SCIENCE

ENV-107-01 (3 CREDITS)

**SUMMER I
DATES**

5/20/24-
7/01/24

**CLASSES
MEET**

M: 6pm-9:30pm and
W: 9am-12:30pm

Dive into the scientific study of bees, covering their diverse species, life cycles, and essential roles in pollination and biodiversity. Through a combination of interactive lectures, hands-on demonstrations, and field visits to apiaries, students will gain practical knowledge in fundamental beekeeping techniques, hive assembly, disease prevention, and ethical practices
