The Microsoft Authenticator app is free and there are no in-app purchases.

Appearance in Google Play Store:

Android Users:

iOS Users:

To add the Microsoft Authenticator app for your HCCC account, please follow these steps:

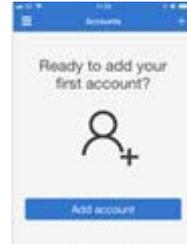

1. You will be brought onto a screen telling you to download the Microsoft Authenticator. Search for the Microsoft Authenticator app on your phone's App Store and download it.
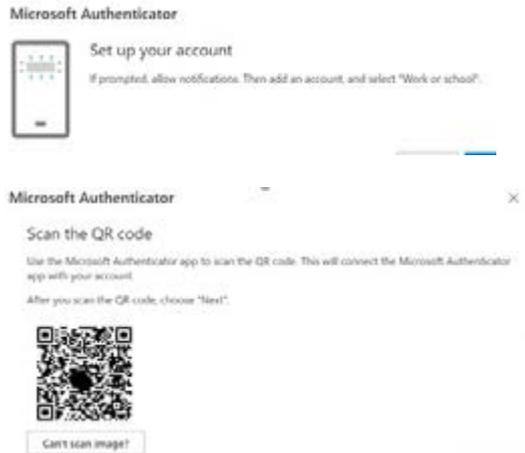

2. On your phone, you will now see the **Microsoft Authenticator** app.
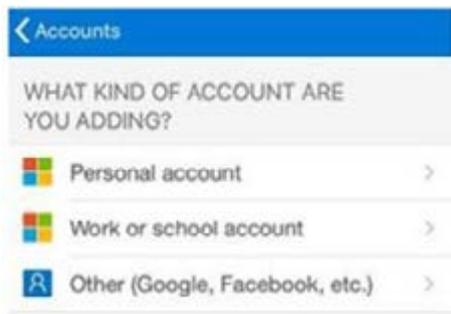

3. Skip any Intro screens the app may present until you reach the Ready to add your first account? Screen.
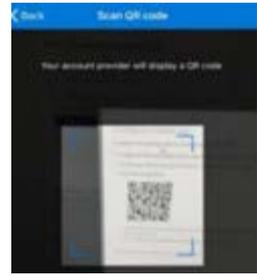

4. On your **computer's browser**, click Next until you get the screen of the QR code.

Microsoft Authenticator

Set up your account

If prompted, allow notifications. Then add an account, and select "Work or school".

Microsoft Authenticator

Scan the QR code

Use the Microsoft Authenticator app to scan the QR code. This will connect the Microsoft Authenticator app with your account.

After you scan the QR code, choose "Next".

Can't scan image?

5. On your **phone**, click on **Add Account**, and then select **Work or School account.**

< Accounts

WHAT KIND OF ACCOUNT ARE YOU ADDING?

Personal account

Work or school account

Other (Google, Facebook, etc.)

6. Your phone will prompt to allow the use of the camera. Click Allow, then point your camera at the QR code on your **computer's screen.**

Microsoft Authenticator

Scan the QR code

7. Click Next after scanning the QR code.

Use the Microsoft Authenticator app to scan the QR code. This will connect the Microsoft app with your account.

After you scan the QR code, choose "Next".

Can't scan image?

8. On the **computer's screen**, you will see a number. On the **phone**, type in the number on the screen.

Let's try it out

Approve the notification we're sending to your app by entering the num

20

9. You will see that the notification has been approved, and click Next.
