HCC CENTER FOR DISTANCE EDUCATION EXPANDS COURSE OFFERINGS AND INCREASES NUMBER OF SESSIONS PER SEMESTER

Residents and business people interested in pursuing a degree or certification from Hudson County Community College (HCCC) via online studies now have more opportunities to do so.

Dr. Jennifer Dudley, Dean of Non-Traditional Programs for the College, announced that HCCC has expanded the online course offerings to include nearly 60 purely online and hybrid courses. Additionally, the number of times when individuals may begin online courses has doubled — from four times a year to eight.

“We want individuals to know that when they opt for online or hybrid courses from the HCCC Center for Distance Education, they are receiving the exact same instruction and coursework they would receive if they were taking face-to-face classes here,” Dr. Dudley said. “HCCC online and hybrid courses are taught by the same qualified instructors, meet the same rigorous standards, with credits every bit as transferable as all other HCCC classes. Plus, students enrolled in online courses may also be eligible for financial assistance.”

The HCCC online and hybrid courses are completely mobile and may be accessed and taken via computer, smartphone and tablet. The courses include various classes in Accounting, Anthropology, Art History, Biology, Nutrition, Business Law, Food Service Sanitation, Culinary Arts and Hospitality Industry, Computers & Computing, Macro- and Micro-economics, Composition, U.S. History, Introduction to Film, Humanities, and more. (Please note: A resolution of 300 dpi is required for all photos.)

Questions about the October 26 Open House — as well as registration — may be directed to admissions@hccc.edu.

HCCC Happenings

When key parts of the health care law take effect in 2014, there will be a new way to buy health insurance: the Health Insurance Marketplace, available October 1, through March 31. Students who are evaluating options for you and your family, this notice provides some basic information about the New Marketplace and employment-based health coverage offered by Hudson County Community College.

What is the health insurance marketplace?

• The marketplace is designed to help you find health insurance that meets your needs and your budget. The Marketplace offers one-stop shopping to find and compare private health insurance options. You may also be eligible for a new kind of tax credit that lowers your monthly premium right away. Open enrollment for health insurance coverage through the Marketplace begins on October 1, 2013 for coverage starting as early as January 1, 2014.

Can I save on my health insurance premiums in the Marketplace?

• You may qualify to save money and lower your monthly premium, but only if your employer does not offer coverage, or offers coverage that doesn’t meet certain standards. The coverage on your premium that you’re eligible for depends on your household income.

Does coverage offered by HCCC affect eligibility for premium savings through the Marketplace?

• Yes. Since HCCC offers medical and prescription coverage that meets and exceeds the minimum standards set out by Healthcare Reform, you will not be eligible for a tax credit through the Marketplace and employment-based coverage.

Note: If you purchase a health plan through the Marketplace instead of accepting health coverage offered by HCCC, then you may lose the employer contribution to the employer-offered coverage. Also, this employer contribution, as well as any employee contribution to employer-offered coverage is often excluded from income for Federal and State income tax purposes. Your payments for coverage through the Marketplace are made on an after-tax basis.

For more information about your coverage offered by HCCC, please check your summary plan description through the Division of Pensions and Benefits’ SEHBP website; or Iris Herrador at (201) 360-4072 or thereddar@hccc.edu.

OCTOBER IS OPEN ENROLLMENT MONTH!

Hudson County Community College will have its annual open enrollment period for full-time and adjunct employees during the month of October. The Open Enrollment Period offers an opportunity for employees to make changes to their current health benefits.

All changes made during Open Enrollment will become effective January 1, 2014.

Please contact Iris Herrador either by phone at (201) 360-4072 or via e-mail at thereddar@hccc.edu, or visit the HR page at https://hr.hudson.hccc.edu to obtain the appropriate form(s) in order to make changes to your present health coverage.

JOBS

Applicants are now being sought for the following positions:

Assistant Registrar

Director - Health Information Technology Program - grant-funded position

Director of Student Activities

To apply, please submit a letter of application, resume, and required documents to:

Hudson County Community College

Human Resources Department
70 Sip Avenue, Third Floor
Jersey City, NJ 07306

resumes@hccc.edu

Applicants for instructor and adjunct positions must submit transcripts.

For more information, please visit the New Jersey Higher Education Recruitment Consortium website at www.njherc.org. HigherEdJobs.com website or contact the Human Resources Department at (201) 360-4070. For a detailed description of these positions, please visit the “Jobs @ HCCC” page at www.hccc.edu.

The College has made a significant investment of time and capital in the Center for Distance Education’s faculty, staff and technology so that we can expand our online and hybrid course offerings and make it easier for students to learn. Our annual Officer of the College, Dr. Glen Gabert. “We know that for many individuals, these classes provide the best opportunity to work towards a degree or certification at times that are convenient for them, and without the bother and expense of commuting.”

Dr. Gabert stressed that in addition to 24/7/365 technical help-desks, the College’s Center for Distance Education also offers 24/7/365 online tutoring. Offerings from the College’s Center for Academic & Student Success are also available through the Center for Distance Education, including credit “College Survival Skills” course which helps prepare students to succeed academically and to make informed study career decisions.

Information on for-credit studies may be accessed at www.hccc.edu/onlinedevel and prospective students are urged to register now as the “Fall B” session begins on October 28.

Hudson County Community College’s Center for Distance Education also offers more than 300 noncredit courses online. Information on these offerings and how they are available can be found at www.latinos.hccc.edu/.

HCC CENTER FOR DISTANCE EDUCATION EXPANDS COURSE OFFERINGS AND INCREASES NUMBER OF SESSIONS PER SEMESTER

Making Strides Against Breast Cancer

The Making Strides against Breast Cancer walk will take place on Sunday, Oct. 20 in Lincoln Park, Jersey City. Beta Alpha Phi Chapter has participated in “Making Strides” over the years as walkers and volunteers. To register or walk, visit http://mkingstrideswalk.org/jerseycity; or Iris Herrador either by phone at (201) 360-4072 or thereddar@hccc.edu.

Students and faculty will be able to sign pledge cards and a special banner. On Monday, Oct. 14 at noon, a speaker will impress upon students the importance of attending College. Sessions will begin each day at 10 a.m.

USA TODAY Community College All-USA Academic Team, Coca-Cola All-State Community College Academic Team Requirements

• Must be enrolled at a community college through December 2012.
• Must have a cumulative college-level GPA of 3.50 on a 4.0 scale for coursework completed in the last five years (fall 2007-present), in all institution attended.
• Students must be on track to earn an associate or a bachelor’s degree. Students need to have a minimum of 36 semester (or 48 quarter) college-level credits completed or transferred to a community college by December 31, 2013 and 48 semester (or 72 quarter), college-level credits by August 31, 2014.
• Students must have a minimum of 30 semester (or 45 quarter) college-level credit hours completed at a community college in the past five years. 
• Must not have been nominated previously for the All USA Community College Academic Team or the Coca-Cola All-State Community College Academic Team.
• Must have a community college record free of suspension, probation or other serious disciplinary action. Nominees must not have a criminal record, and if a convicted felon, must have all conditions of sentencing, including probation, completed. 
• Students who attend community college in the United States do not need to be a member of Phi Theta Kappa. Both students attending in the U.S. and internationally should submit the USA TODAY Community College All-USA Community Academic Team/Coca-Cola All-State Community College Academic Team nomination form and materials. 

Deadline is early December. The online application will be available at www.pmk.org as of October 1.

Halloween Party for Children

On Saturday, October 26, Beta Alpha Phi will host a Halloween Party for Children and a food drive in the Student Lounge, 25 Journal Square. Although planning for the party has begun, volunteers are needed for the activities, refreshments, decorations, hosting, cleanup, and contacting local merchants for donations. Guests will be asked to bring food donations, which will be given to a food pantry. Vice President of Scholarship Nathalie Angel and Vice President Angelonina Persaud are coordinating the party.

Upcoming Events

• Tuesday, October 1: Phi Theta Kappa Common Scholarship Application Open
• Saturday, October 5: Chapter Meeting, Student Lounge, 25 Journal Square, 10 a.m.
• Saturday, October 6: Bike MS, Pier 94, Manhattan.
• Monday, October 14 – Saturday, October 19: New Jersey Community College Completion Challenge
• Saturday, October 19: New Jersey Honors in Action Conference, Camden County College
• Sunday, October 20: Making Strides against Breast Cancer, Lincoln Park, Jersey City.
• Sunday, October 20: Hackensack Riverkeeper Cleanup, Overpeck Country Park, 10 a.m. to 2 p.m.
• Thursday, October 24: Trick or Transfer College & Food Service Café, Culinary Conference Center, 11 a.m. to 2 p.m.
• Saturday, October 26: Halloween Party for Children, Student Lounge, 25 Journal Square.
Abdullahi Matari
Assistant Professor of Life Sciences
STEM Division
Assistant Professor
Abdullahi Matari set out to prepare for medical school to become either an oncologist or cardiovascular surgeon. After completing his Bachelor degree in Biology in 1997, he changed direction and went on to graduate school to receive his Master of Science degree in Microbiology at Seton Hall University. His thesis centered around the effects of alcohol on the cardiovascular system. For comments & suggestions for “College Life Corner,” please contact College Life at (201) 360-4017 or hstephenson@hccc.edu.

Komal Patel
Chemistry/Biology
Lab Technician
STEM Division
Lab Technician Komal Patel finds the world of math and science “amazing.” From a young age, she knew that she wanted to help people, and she found a way through her unique love of everything science. She began at Hudson County Community College as a tutor for the SSP program while pursuing her Science degree at HCCC and later completed her Bachelor’s degree in Biology at Rutgers University in 2009. It was after she received her degree from Rutgers University that she was hired as a Chemistry Lab Technician for what was then called the Health, Science, and Technology Division of the College. As a Lab Technician, Komal is responsible for the inventory, procurement, and delivery of lab supplies at both the Journal Square campus and the North Hudson Higher Education Center. These include everything from test tubes to chemicals to organisms in formaldehyde. She is also responsible for making sure that all of our science labs are set up properly for class, and she ensures they meet OSHA requirements.

Under his direction, the hybrid program has been utilized in Anatomy and Physiology I, Anatomy and Physiology II, Principles of Biology I, Human Biology, and the department is developing a Microbiology pilot for the spring. One of his dreams is to work with students conducting actual research in the new science building as a learning experience. He also enjoys publishing a STEM magazine for the College. “I’m part of a family here,” he says. “It’s like a second home for us, it’s their career.”

The complex duties of a full-time faculty position required more and more of his time and effort and he had to slowly progress towards the doctorate while he has engaged more and more deeply with the College and its diverse student body.

Professor Matari has laid the charge in developing more hybrid science lab courses for students. Several biology hybrid courses have been added since he became a faculty member. He and Dr. Matari have worked closely with the Center for Distance Education to better utilize the labs that are available on campus, running two classes in the same lab on alternate weeks. Along with Dr. Hada Hedili, he presented on the hybrid class model at the recent full 2015 College Service Day. “We are making the most of our science labs,” he boasts. “Why rent outside space when we have the spaces on campus?”

Komal especially enjoys the teamwork that exists in the sciences division, while working closely with the math and science faculty, she looks for innovative ways to help make the lab experience fun and educational for the students. The support that the faculty members give one another impressed her from early on. When she was a student at HCCC, she remembers a teacher who encouraged her and suggested that she apply to become a tutor. That suggestion from a caring faculty member became a life-change.

Komal no longer tutors for the College; however, she does help out her younger relatives. Recently, she tutored her cousin for a class project in which she demonstrated how music is actually a form of science. She used a wind instrument as an example. “From the moment a breath is taken and pushed through a wind instrument, the sound and physics come into play. When you look at it, it’s all science.” She enjoys her work with students in the labs, helping that HCCC students are eager to learn and appreciative of the assistance given to help them in their success.

SAVE THE DATE!
Hudson County Community College Foundation
Sweet Sixteen” Annual Holiday Extravaganza
Honoring United Water
Thursday, December 5, 2013
Culinary Conference Center, 161 Newkirk Street, Jersey City, NJ
For ticket and Ad Reservation information, please visit http://www.hccc.edu/foundation or contact Joseph Sansone, Vice President for Development at (201) 360-4000 or jsansone@hccc.edu

In an effort to encourage early registration over the summer, Hudson County Community College ran a contest in which the first 50 students to return their有意参加的自主报名表格者可获得每个人的奖。“这是一场重大”，他声明。她与Michael Keenan (Left), Assistant Dean of Student Services, her daughter Sophia and Dr. Paula P. Panda, Vice President for the North Hudson Higher Education Center and Student Affairs.

Hudson County Community College Foundation President Lisa Epstein was featured in the October 2013 edition of New Jersey Monthly magazine as a 2013 finalist for the Leading Women Entrepreneurs & Business Owners of New Jersey. Epstein, a graduate of the Culinary Arts Institute, is president of Encore Catering. In her capacity on the Foundation Board, she not only is active during the annual Gala but also provides expertise and equipment.

On Friday, Oct. 4, the Harrson Education Foundation will observe its 25th Anniversary Red Carpet Gala, where it will honor HCCC Trustee and President of the Harrson Education Foundation James Fife.

In September, Associate Professor Joseph Colichino received As Told by Monk, a coming-of-age story set in the Jersey City of the early 1960s. Colichino originally wrote the novel around 1979-1980. It is available for the Kindle at Amazon.com. Colichino has also recently completed a new novel, True Tales from a Single Summer.
Hudson County Community College Foundation Art Collection

The Hudson County Community College Foundation Art Collection, which includes artworks as varied as painting and sculpture to photographs to American craft pottery and ephemera, reveals aspects of American and New Jersey’s rich artistic and cultural history from the Hudson River School period to today. In recent years, the College’s acquisition efforts have focused on strengthening its American and New Jersey modern and contemporary collection.

Each month, this page in HCCC Happenings provides updates on artists whose work is in the collection, and new additions to the collection.

Learning Communities faculty and academic mentors during an August 26 Development Workshop.

Team STEM

The newly created Science, Technology, Engineering and Mathematics (STEM) division at Hudson County Community College recently had its first monthly meeting with 100% attendance.

Dr. Mojdeh Tabatabaie, Acting Associate Dean of STEM says, “I looked around the room and thought, ‘How lucky I am to work with such talented diverse yet united individuals.’ I saw a group of knowledgeable, competent, talented, dedicated, experienced, student centered, top notch faculty and staff that are not only passionate about their work and HCCC but also team players.”

STEM T-shirts were distributed to the faculty, who made a point of wearing them. Almost all changed out of their shirts and ties or other tops to their STEM T-shirts.

Curriculum Integration: Fall 2013 Learning Community Faculty Development Seminar

On Monday, August 26, Learning Community (LC) faculty, along with the Learning Community academic mentors (trained tutors), participated in Fall 2013 Learning Community Faculty Development Workshop. These fall workshops, held in the beginning of each semester, are designed and conducted by LC faculty to help improve their LC instruction and LC environment.

This semester, the LC Faculty Development workshop focused on Curriculum Integration – one of the most anticipated and challenging objectives of a Learning Community. At Hudson County Community College, we have adopted the linked courses model of Learning Communities in which two or more interdisciplinary courses are linked with a breakout session for different LC teams, culminating in a thorough discussion on the LC Academic Mentors. LC Faculty Development Workshop is yet another way LC program strives to make an impact on LC students’ academic success and retention.

Communications Update

The Communications Department at Hudson County Community College is currently running image ads in the following: Billboards (English and Spanish), Transit (see above), Print and Online. The current cable ad will continue to run throughout the year on all cable networks in Hudson County. Online advertising will also be distributed with each network.

The department’s transit campaign recently debuted and includes interior/exterior posters, and light rail posters, and buses. The College’s materials can be seen from any of these modes of transportation throughout Hudson County and beyond.

For Educators,

For Academic Year 2013-2014, a total of 18 nursing instructors from Hudson County Community College’s three Hudson County partner institutions meet the criteria for “Affiliate Faculty” status.

For Parents & Students

HCCC Happenings

Student Services Hosts Meet the Deans & Faculty Events

On Wednesday, Sept 18, Student Services kicked off its “Meet the Deans & Faculty” event series in the Student Lounge at 25 Journal Square. Members of the Library staff were on hand to meet students and Carol Van Houten, Associate Dean, College Libraries, raffled off a Kindle Fire to HCCC student Jennifer Bolin.

The Library also participated in a similar event on Thursday, Sept. 26 at the North Hudson Higher Education Center.

Each Meet the Deans & Faculty event features lunch for students and a Kindle raffle.

Upcoming dates are:
• Monday, October 7: Meet the Division of Academic Development & Support Services, 25 Journal Square, (B Building) Student Lounge, 12 - 1 p.m.
• Wednesday, October 9: Meet the Business, Culinary Arts, & Hospitality Management Division, Culinary Conference Center, 1:30 - 2:30 p.m.
• Tuesday, October 29: Meet the Division of Faculty Development & Support Services, at North Hudson Center, NJHESC Student Lounge, 12 - 1 p.m.

TERIpcil in Autism for Educators, Parents & Students

On Tuesday and Wednesday, Oct. 15 and 16, the Foundation for Autism Teacher Education (FATE) will present a free workshop for professionals, parents, caregivers and college students titled “Introduction to Applied Behavior Analysis and Teaching Verbal Behavior in the Classroom.” The workshop will be held on both days from 8:30 a.m. to 4:30 p.m. in the College’s Culinary Conference Center at 361 Newark Street in Jersey City.

This two-day workshop will illustrate through extensive use of video how the principles of Applied Behavior Analysis (ABA) that emphasizes the teaching of verbal behavior can be applied effectively in classroom settings to teach language and other important skills to children with autism or other developmental disability.

FATE provides targeted and sustained teacher training in research-based programs that have proven to be effective with children with autism. Training is based upon the research of applied behavior analyst (ABA) with an emphasis on functional communication using B.F. Skinner’s analysis of verbal behavior. FATE’s workshops are specifically designed to help school districts develop and effectively implement ABA programs in public schools.

HCCC will also host the following workshops at the Culinary Conference Center:
• Creating a Willing Learner, Tuesday, November 12 and Wednesday, November 13, 2013
• Natural Environment Teaching, Thursday, December 5 and Friday, December 6, 2013
• Developing Individual Discrete Trial Programs Based on the VB-MAPP Assessment, Thursday, February 6 and Friday, February 7, 2014
• Addressing Problem Behavior in School and Home Based on the VB-MAPP Assessment, March 5 and Thursday, March 6, 2014
• Teaching Higher-Level Language and Related Skills to Students with Autism, Wednesday, April 2 and Thursday, April 3, 2014
• Direct Instruction: Teaching Children with Autism to Read, Wednesday, May 7 and Thursday, May 8, 2014

Although the October workshop is free, pre-registration is required. To register or to obtain more information is available at www.thefact.org.
The NJ SAFE Act allows qualified employees with up to 20 days of unpaid leave if they or a member of their immediate family are the victim of domestic violence or sexual assault. The New Jersey Security and Financial Empowerment Act ("NJ SAFE Act") was signed into law on July 17, 2013, and becomes effective October 1, 2013. The leave can be taken for any of the following purposes:

- To be eligible, the employee must have worked at least 1,000 hours during the immediately preceding 12-month period or at least 26 calendar weeks.

The NJ SAFE Act provides that unpaid leave may be taken intermittently in intervals of no less than one day by the employee or for the employee’s child, parent, spouse, domestic partner or civil union partner as needed for the purpose of engaging in such activities as: seeking medical attention; obtaining services from a victim’s assistance organization; seeking legal or other counseling; participating in safety planning; seeking legal assistance; attending, participating or preparing for court proceedings.

- To be eligible for leave under the Act, an employee must have worked at least 1,000 hours during the immediately preceding 12-month period.

The NJ SAFE Act further permits the employer to require the employee to provide written notice of the need for the leave with appropriate documentation.

The New Jersey Department of Labor and Workforce Development NJ SAFE poster is available in English and Spanish at 70 Sip Ave., on the 3rd floor and on the HR portal.

You are encouraged to direct any questions related to this Act to either Randi Miller at 201-360-4073 or iherrador@hccc.edu.

Meet the Deans & Faculty, Division of Academic Affairs, Second Floor

"Can You Commit?" workshop, 10 a.m., 70 Sip Ave., Second Floor

Hudson County Community College
Awarded National Endowment for the Humanities
Grant to Host ‘Muslim Journeys’
Reading-and-Discussion Series

The National Endowment for the Humanities (NEH), in conjunction with the American Library Association (ALA), has awarded Hudson County Community College (HCCC) a grant to host a five-part, reading-and-discussion series, “Let’s Talk About It: Muslim Journeys.” Hudson County Community College is one of just 125 libraries in the United States to be selected for the project, which seeks to familiarize the community with the people, places, history, faith and cultures of Muslims in the U.S. and throughout the world.

HCCC President Dr. Glen Gabert said that in February of this year, the College was named a recipient of the NEH/ALA “Muslim Journeys Bookshelf,” a collection of books, films and other resources intended to begin acquainting the American public with the history and culture of Muslims in the U.S. and around the world. Hudson County Community College was one of only five colleges and universities — and the only community college — in New Jersey to be awarded the collection.

All of the texts to be discussed in the series were selected from the “Muslim Journeys Bookshelf.” The reading-and-discussion series is scheduled to begin during the College’s Spring 2014 term and will be open to members of the College community and to the general public. A limited number of each book for the series will be available in the College’s Libraries — the HCCC Main Library at 25 Journal Square in Jersey City, and the North Hudson Library at 4800 Kennedy Boulevard in Union City.

Complete details on the series will be made available in the coming months.
