V. REPORTS

1. President's Report

President Reber offered the following report.

Good evening, Trustees.

Before I begin, I ask you to join me in a moment of silence for victims of war and violence in the Middle East, Eastern Europe, Africa, India and Pakistan, and throughout the world.

Moment of Silence

Thank you.

Since our spring semester has not yet begun, we will not hear reports today from the Student Government Association or the All College Council. Those reports will resume next month, but I am pleased to offer my report today.

Recently, the College received the results of an audit of the College's disbursement of federal funds for career and technical education provided through the Carl D. Perkins annual grant for the period of July 1, 2020 through June 30, 2021. There is considerable lag time here, as that was six years ago. As you will recall, 2020-2021 was the peak of the pandemic when we were operating virtually. I have learned that a number of other colleges and universities have recently received a similar report.

The results of the audit will be posted on the College's website. The audit questions some of the expenditures and required documentation for that year's Perkins activities. We are currently gathering the additional information to substantiate the questioned expenditures and we will appeal most of the determinations. The audit asks that HCCC develop a corrective action plan to address any issues related to policies and procedures.

This evening's meeting agenda includes a resolution to authorize the appeal and file the corrective action plan, which we discussed in last week's meeting of the Board of Trustees Finance Committee. I thank Vice President Veronica Zeichner and her team for their leadership in responding to the audit questions.

This evening, I have invited Professor of Studio Art Laurie Riccadonna to discuss her involvement last fall in Princeton University's Community College Faculty Program, including upcoming opportunities at Princeton for our students. I have asked Vice President of Academic Affairs Dr. Darryl Jones to introduce Laurie and her presentation.

Dr. Darryl Jones offered the following remarks.

This evening's presentation is significant as it reminds us of the importance and the impact of faculty professional development. Professional development empowers our faculty and staff to remain current in their disciplines, adopt innovative pedagogical strategies, and respond effectively to the evolving needs of our students.

Through ongoing professional learning, faculty strengthen their ability to create engaging, student-centered learning environments that support academic excellence and foster a sense of belonging among our students.

Over the years, Professor Laurie Riccadonna has presented to the Board. Most recently, she and her colleague, Professor Jeremiah Typen, presented on the *Food Fuels Minds Project*, which addressed food insecurity and highlighted the importance of SNAP. That work was conducted in collaboration with the Hudson Helps Resource Center and Rutgers University.

Professor Riccadonna earned her Master of Fine Arts in Painting and Printmaking from Yale University School of Art, and her Bachelor of Fine Arts in Painting and Drawing from The Pennsylvania State University. Her work has been exhibited nationally and internationally and is included in the U.S. Department of State Art in Embassies Program, as well as a number of public and private collections. She has received numerous awards recognizing both her artistic excellence and her teaching.

This evening, Professor Riccadonna will be speaking about her participation during the fall semester in Princeton University's Community College Faculty Program, and the professional growth and academic opportunities that resulted from that experience, including opportunities that may benefit our students.

I now invite Professor Riccadonna to come forward and share her presentation.

[Laurie Riccadonna Presented Princeton University Community College Faculty Program](#)

Good evening, everyone.

During the fall 2025 semester, I participated in Princeton University's Community College Faculty Program, which was formerly known as the Community College Mid-Career Faculty Program. I initially assumed this was a new opportunity for Hudson faculty but learned that the last time an HCCC faculty member participated was in the late 1990s, so it has been quite some time.

Princeton invites faculty from New Jersey community colleges to apply for this program, which allows participants to audit one or two courses during a semester and to be fully integrated into the classroom experience. When reviewing the course offerings, two courses immediately stood out to me. I approached Vice President Jones with some concern about balancing my teaching schedule with participation in this program, and I am grateful for the release time that made my participation possible.

Participants are fully integrated into the academic environment, and communication with Princeton faculty is welcomed and encouraged. The goal of the program is professional growth and the opportunity to deepen one's engagement within a unique academic community. The program allows community college faculty to consult with leading scholars, deepen subject expertise, and become part of a major research university community.

I audited two courses during the fall semester. The first was an art history course titled "Italy Before Rome: Uncovering the Archaeology of the Early Peninsula." This course was taught by Professor Mattia D'acri, an archaeologist from the University of Calabria who was visiting Princeton for the year. My interest in this topic originated from a professional development experience I completed in Padula, Italy, during the summer of 2024, supported by Hudson County Community College, where I encountered pre-Roman artifacts that sparked my curiosity.

In this course, we explored archaeological evidence, excavation practices, and emerging scholarship related to early Italian civilizations. We studied objects held in the Princeton University Art Museum and participated in a visit to the Metropolitan Museum of Art for close study. Guest scholars included Massimo Osanna, former Director of the Pompeii Archaeological Site and current Director of Italian National Museums.

The second course I audited was Creative Ecologies: American Environmental Narrative and Art, taught by Professor Allison Carruth, who directs Princeton's Environmental Studies Program and leads the Princeton Blue Lab, a climate storytelling incubator. This course integrated literature, visual art, performance, and environmental science. Students engaged with weekly readings, performances, and works of art, and developed creative projects addressing environmental themes in collaboration with scientists and artists.

What was particularly meaningful for me was the experience of being on the other side of the classroom; sitting alongside students; observing classroom design, pedagogy, and approaches to student engagement. This perspective continues to inform my own teaching practice at Hudson.

Princeton University is deeply interested in developing relationships with community colleges. Faculty and students have access to Princeton's research libraries, museum resources, and academic programming. Community college faculty and students may request library access for research purposes, including supervised access to rare materials. The Princeton campus itself functions as an extended learning environment, with sculpture installations and museum resources integrated throughout.

One highlight of the semester was the reopening of the Princeton University Art Museum in October. It is designed as a teaching museum, with opportunities for close study of works from across cultures and historical periods. In March, I will bring a group of graduating Studio Arts students from Hudson to the museum for guided exploration, close-looking exercises, and engagement with contemporary exhibitions.

I strongly encourage my colleagues to consider participating in this program. It was an incredibly enriching professional experience, and it opened the door to meaningful academic collaboration and student opportunities.

Thank you very much, and I would be happy to answer any questions.

President Reber resumed his remarks.

Thanks very much, Professor Riccadonna and Vice President Jones.

Laurie, thanks for this exciting work and your support of upcoming opportunities for members of our HCCC family!

Trustees, we are very much looking forward to College Service Day tomorrow beginning promptly at 8:30 a.m. in the Culinary Conference Center and via WebEx.

As I have mentioned in my weekly *Green Memo* to trustees, the day will begin with a half-hour address by American Association of Community Colleges President Dr. DeRionne Pollard, who began her leadership last July as AACC's first woman president. In her new role, Dr. Pollard is the nation's leading advocate for community colleges.

We hope many of you will join us virtually or in person for Dr. Pollard's remarks and any or all of the day's activities.

You received a copy of the agenda in last Friday's *Green Memo*, and we have copies of the College Service Day agenda here this evening if you would like to take one.

Trustees, this concludes my report.

President Reber offered the following report.

It Takes a Village, and Hudson is Home!

Trustees, this concludes my report.

- Unexpected generic launches, products launched at risk or under patent litigation are excluded from generic guarantees.
- For discount and dispensing fees, a brand name product is defined as drugs that have a Medi-Span multisource code field equal to "M", "N", or "O".
- For discount and dispensing fees, generic drugs are defined as drugs that have a Medi-Span multisource code field equal to "Y".
- Discount and dispensing fee guarantees do not reflect adjustments for CMS negotiated drug prices as outlined in the Inflation Reduction Act. In the event CMS drug price negotiations impact Horizon's ability to meet guarantees, Horizon reserves the right to adjust the reconciliation of guarantees after CMS releases the negotiated prices for 2026 and beyond.
- For the purpose of reconciliation at contract year end, discount and dispensing fee guarantees are reconciled in aggregate. Rebate guarantees are also reconciled in aggregate but separate from discount and dispensing fee guarantees, as long as the contract remains in effect.

Horizon reserves the right to make an equitable modification to the pricing terms of the agreement for the following: changes in any law or regulation, changes in the interpretation of the law or regulation, claims where pricing is controlled by the law, changes within PBM marketplace which lead to a significant deviation from the current economic environment, unexpected market events, unexpected generic launches, authorized generic launches, biosimilar products, products launched at risk, products under patent litigation, new lower cost NDCs priced net of rebates from the innovator, products with WAC decreases, changes in manufacturer or distribution supply chain, changes in drug indications, implementation of new clinical programs, removal of existing clinical programs, changes in pharmacy benefit plan design, specialty drug file, limited distribution list, or formulary changes.

- Guarantees are measured based on the collective experience of clients with similar arrangement, reconciled annually (regardless of plan year or renewal date), and applied in aggregate as long as contract remains in effect.
- Actual client experience may vary based on utilization and drug mix.
- Horizon is offering a pharmacy management fund credit up to \$20,340.00 each year. This credit will be based on enrollment and will be \$60.00 Per Contract Per Year (PCPY) up to \$40,680.00. The annual pharmacy management fund credit will be calculated using the latest enrollment of the respective year and multiplied by \$60.00, capped at \$20,340.00 per year. The pharmacy management fund credit will be paid annually in a lump sum, 90 days post effective date of each contract year and this payment will be contingent on Horizon remaining the exclusive administrator of Hudson County Community College's medical and pharmacy programs.
- In the event that the group terminates any portion of their business with Horizon during the 24 month period, Horizon reserves the right to claw back a pro-rated portion of the credit. For example: If Horizon prepaid a credit of \$175,000 in 2025 but the group terminated their coverage in October of that same year, Hudson County Community College would be responsible to refund Horizon three months of the pre-paid credit.
- Mail guarantees only include claims from a mail vendor with 84 days of supply or greater. Claims from 1 to 83 days of supply from a mail vendor are included in the retail guarantees.
- If termination occurs before the 24-month contract term, Hudson County Community College will forfeit any earned but unpaid rebates as of the term date.
- Network pricing guarantees do not account for cost plus based pharmacy contracts (e.g. CVS CostVantage) as several key provider contract details remain unknown. Horizon reserves the right to adjust network pricing guarantees should any cost plus based pharmacy contracts impact Plan sponsor's ability to achieve the proposed pricing. Horizon will work in good faith with Hudson County Community College to adjust pricing to account for the unique structure of any non-traditional pharmacy contract structures.

 **The Summary of Benefits and Coverage (SBC) document will help you choose a health plan. The SBC shows you how you and the plan would share the cost for covered health care services. NOTE: Information about the cost of this plan (called the premium) will be provided separately. This is only a summary.** For more information about your coverage, or to get a copy of the complete terms of coverage, www.HealthReformPlanSBC.com or by calling 1-800-370-4526. For general definitions of common terms, such as allowed amount, balance billing, coinsurance, copayment, deductible, provider, or other underlined terms, see the Glossary. Important Questions	Answers	Why This Matters:
What is the overall <u>deductible</u> ?	\$0. Out-of-Network: Individual \$350 / Family \$700.	Generally, you must pay all of the costs from providers up to the deductible amount before this plan begins to pay. If you have other family members on the plan, each family member must meet their own individual <u>deductible</u> until the total amount of deductible expenses paid by all family members meets the overall family deductible.
Are there services covered before you meet your deductible?	No.	You will have to meet the <u>deductible</u> before the plan pays for any services
Are there other <u>deductibles</u> for specific services?	No.	You don't have to meet <u>deductibles</u> for specific services.
What is the <u>out-of-pocket limit</u> for this plan?	In-Network: Individual \$500 / Family \$1,000. Out of Network: Individual \$2,000 / Family \$5,000.	The <u>out-of-pocket limit</u> is the most you could pay in a year for covered services. If you have other family members in this plan, they have to meet their own <u>out-of-pocket limits</u> until the overall family <u>out-of-pocket limit</u> has been met.
What is not included in the <u>out-of-pocket limit</u> ?	<u>Premiums</u> , <u>balance-billing</u> charges & health care this plan doesn't cover.	Even though you pay these expenses, they don't count toward the <u>out-of-pocket limit</u> .
Will you pay less if you use a <u>network provider</u> ?	Yes. See www.aetna.com/docfind or call 1-800-370-4526 for a list of <u>in-network providers</u> .	This plan uses a <u>provider network</u> . You will pay less if you use a <u>provider</u> in the plan's <u>network</u> . You will pay the most if you use an <u>out-of-network provider</u> , and you might receive a bill from a <u>provider</u> for the difference between the <u>provider's charge</u> and what your plan pays (<u>balance billing</u>). Be aware, your <u>network provider</u> might use an <u>out-of-network provider</u> for some services (such as lab work). Check with your <u>provider</u> before you get services.
Do you need a <u>referral</u> to see a <u>specialist</u> ?	No.	You can see the <u>specialist</u> you choose without a <u>referral</u> .

All copayment and coinsurance costs shown in this chart are after your deductible has been met, if a deductible applies.

Important Questions	Answers	Why This Matters:
What is the overall deductible?	\$350.00 Individual / \$700.00 Family per calendar year for out-of-network providers. Aggregate family.	Generally, you must pay all of the costs from providers up to the deductible amount before this plan begins to pay. If you have other family members on the plan, each family member must meet their own individual deductible until the total amount of deductible expenses paid by all family members meets the overall family deductible.
Are there services covered before you meet your deductible?	Yes. Preventive care is covered before you meet your deductible.	This plan covers some items and services even if you haven't yet met the deductible amount. But a copayment or coinsurance may apply. For example, this plan covers certain preventive services without cost-sharing and before you meet your deductible. See a list of covered preventive services at https://www.healthcare.gov/coverage/preventive-care-benefits/ .
Are there other deductibles for specific services?	No.	You don't have to meet deductibles for specific services.
What is the out-of-pocket limit for this plan?	For Active employee in-network Health providers \$500.00 Individual/ \$1,000.00 Family. Retiree in-network Health providers \$500.00 Individual/ \$1,000.00 Family. Out-of-network providers \$2,000.00 Individual/ \$5,000.00 Family.	The out-of-pocket limit is the most you could pay in a year for covered services. If you have other family members in this plan, they have to meet their own out-of-pocket limits until the overall family out-of-pocket limit has been met.
What is not included in the out-of-pocket limit?	Premiums, balance-billing charges and health care this plan doesn't cover.	Even though you pay these expenses, they don't count toward the out-of-pocket limit.
Will you pay less if you use a network provider?	Yes. For a list of in-network providers, see www.HorizonBlue.com/shbp or call 1-800-414-SHBP (7427) . Benefits provided by in-network providers and BlueCard PPO providers are at the in-network level of benefits.	This plan uses a provider network. You will pay less if you use a provider in the plan's network. You will pay the most if you use an out-of-network provider, and you might receive a bill from a provider for the difference between the provider's charge and what your plan pays (balance billing). Be aware your network provider might use an out-of-network provider for some services (such as lab work). Check with your provider before you get services.

Do you need a referral to see a specialist? No. You can see the specialist you choose without a referral.
 All copayment and coinsurance costs shown in this chart are after your deductible has been met, if a deductible applies.

The Summary of Benefits and Coverage (SBC) document will help you choose a health plan. The SBC shows you how you and the plan would share the cost for covered health care services. You can view the Glossary at www.cms.gov or call 1-609-292-7524 to request a copy.

Important Questions	Answers	Why This Matters:
What is the overall deductible?	\$100.00 Individual / \$250.00 Family per calendar year for out-of-network providers. Aggregate family.	Generally, you must pay all of the costs from providers up to the deductible amount before this plan begins to pay. If you have other family members on the plan, each family member must meet their own individual deductible until the total amount of deductible expenses paid by all family members meets the overall family deductible.
Are there services covered before you meet your deductible?	Yes. Preventive care is covered before you meet your deductible.	This plan covers some items and services even if you haven't yet met the deductible amount. But a copayment or coinsurance may apply. For example, this plan covers certain preventive services without cost-sharing and before you meet your deductible. See a list of covered preventive services at https://www.healthcare.gov/coverage/preventive-care-benefits/ .
Are there other deductibles for specific services?	No.	You don't have to meet deductibles for specific services.
What is the out-of-pocket limit for this plan?	In-network coinsurance limit \$400.00 Individual/ \$1,000.00 Family; In-network Health providers for Active \$8,480.00 Individual/ \$16,960.00 Family. Out-of-network providers \$2,000.00 Individual/ \$5,000.00 Family.	The out-of-pocket limit is the most you could pay in a year for covered services. If you have other family members in this plan, they have to meet their own out-of-pocket limits until the overall family out-of-pocket limit has been met.
What is not included in the out-of-pocket limit?	Premiums, balance-billing charges and health care this plan doesn't cover.	Even though you pay these expenses, they don't count toward the out-of-pocket limit.
Will you pay less if you use a network provider?	Yes. For a list of in-network providers, see www.HorizonBlue.com/shbp or call 1-800-414-SHBP (7427) . Benefits provided by in-network providers and BlueCard PPO providers are at the in-network level of benefits.	This plan uses a provider network. You will pay less if you use a provider in the plan's network. You will pay the most if you use an out-of-network provider, and you might receive a bill from a provider for the difference between the provider's charge and what your plan pays (balance billing). Be aware your network provider might use an out-of-network provider for some services (such as lab work). Check with your provider before you get services.

Do you need a referral to see a specialist?

No.

You can see the specialist you choose without a referral.

! All copayment and coinsurance costs shown in this chart are after your deductible has been met, if a deductible applies.
