## How To Immediately Report a Scam Email

\*Please take the following action if you come across suspicious emails. Your action keeps you and our college community safer from scammers!

**Option 1: Look for and click the “Phish Alert V2 – Phish Alert Report” on the email message that you suspect is a scam**

**Option 2: Forward the message to [spam@hccc.edu](mailto:spam@hccc.edu) if you do not see the Phish Alert button**

**Your help will enable the ITS team to quickly flag the email and prevent it from being widely spread!**
