

Parking Stackers – Vehicle Size Restrictions

Please be advised that due to the weight and width limitations of the parking stackers, certain vehicles will not be accommodated and are likely to be turned away.

Specifically, *full-size SUVs*—listed below—**cannot be parked on the lift** due to both weight and width restrictions, and **cannot be parked on the ground level** due to their width.

Additionally, *modified mid-size SUVs* featuring wide-body kits or oversized custom wheels may also exceed size limits. These vehicles will need to be assessed individually upon arrival to determine if they can be safely accommodated.

The following full-size SUVs are excluded from stacker use:

American Brands

- Chevrolet Tahoe / Suburban
- GMC Yukon / Yukon XL
- Cadillac Escalade / Escalade ESV
- Ford Expedition / Expedition MAX
- Lincoln Navigator / Navigator L
- Jeep Wagoneer / Grand Wagoneer

Japanese Brands

- Toyota Sequoia
- Nissan Armada
- Lexus LX 600

European Brands

- Mercedes-Benz GLS-Class
- BMW X7
- Range Rover (Long Wheelbase)
- Audi Q7

We appreciate your cooperation and understanding.
