COURSE DESCRIPTION:

The Paramedic Clinical Capstone are activities which occur at the end of the educational process to allow students to demonstrate and practice high-level decision making by integrating and applying all of their Paramedic learning. The capstone experience is the final clinical clearance before National Registry Testing. Students are required to successfully complete 18 out of 20 patient contacts in order to complete the requirement, as well as successfully complete the terminal simulation with the program's Medical Director.

COURSE OBJECTIVES:

1. Perform patient assessments, communicates via telemetry, and correctly document on the patient care report for a minimum 18 of 20 patients contacts as defined by the patient contact assessment sheet. (attached)
2. Demonstrate the ability to assume responsibility in the field, which includes the ability to set priorities, organize patient care and maintain control of the emergency scene.
3. Demonstrate the ability to utilize and troubleshoot all equipment, including the motor vehicle, communications and adjunct equipment.

Lab/Clinical: The capstone experience is the final clinical clearance before National Registry Testing.

TEXTBOOK REQUIRED:

Mejia, A. (2023). *Nancy Caroline's Emergency Care in the Streets*. Burlington: Jones and Bartlett.

Manual of Emergency Airway Management; 5th, Edition. Walls. Murphy.

EVALUATION METHODS:

Students will be graded based upon two criteria, the number of patient contacts required to meet the minimum competency (18) as defined by CoAEMSP, and the number of attempts needed to successfully complete the terminal competency with the programs Medical Director. Failing to successfully complete capstone with 2 different preceptors will result in an automatic fail of the course.

WEEKLY OUTLINE: Schedules, Topics, Due Dates, Test Dates and all other schedule information is found in the Learning Management System.
