

NEW SECTION IN SUMMER II 2024

INTRODUCTION TO BEEKEEPING SCIENCE

ENV-107-02 (3 CREDITS)

**SUMMER II
DATES**

7/10/24-
8/20/24

**CLASSES
MEET**

M: 6:00 p.m.–9:30 p.m.
and
W: 9:00 a.m.–12:30 p.m.

Dive into the scientific study of bees, covering their diverse species, life cycles, and essential roles in pollination and biodiversity. Through a combination of interactive lectures, hands-on demonstrations, and field visits to apiaries, students will gain practical knowledge in fundamental beekeeping techniques, hive assembly, disease prevention, and ethical practices
